

DriftWatch

 **driftwatch**
Specialty Crop Site Registry
by FieldWatch

NEBRASKA

Good Life. Great Roots.

DEPARTMENT OF AGRICULTURE

DriftWatch

- To promote communication between producers of specialty crops, beekeepers and pesticide applicators in support of ongoing stewardship activities;
- An online registry and map for commercial specialty crops that, because of their general small size, may not be noticed on the landscape;
- In addition, these crops are generally more sensitive to pesticide injury and crop loss;
- Nebraska DriftWatch is supported and promoted by NDA, with additional promotion to certified applicators conducted by the UNL Pesticide Safety Education Program.

Email: shawni@live.com **Notes:** Lavender crop

Address: 509 County Road 13
Ceresco: NE NE 68017

Phone: 402-570-3113

DriftWatch

- The service is free to specialty crop growers and applicators;
- There is an annual renewal process to ensure information in the database is current and accurate; Non-renewal results in information removed from the map;
- FieldWatch is working with pesticide industry and growers to make the service better.

Thank You!
