

## How To Get Involved:

All agencies who may come into contact with an individual or family experiencing homelessness can help connect, assess and/or refer to the ADLH Coordinated Entry System by the following methods:

- Direct individuals in need to the Public Access Points
- Become a Non-Public Door
- Become a Public Door
- More information can be found on the website listed below.

**COORDINATED ENTRY SYSTEM FOR NEBRASKA  
BALANCE OF STATE AND LINCOLN**

# What is Coordinated Entry?

The All Doors Lead Home Coordinated Entry System is Nebraska's Balance of State and the City of Lincoln's approach to organizing and providing housing services for people experiencing homelessness. Because housing resources are limited, this process is designed to ensure that individuals and families with the highest vulnerability, service needs, and length of homelessness receive top priority in housing placement.

- Consistent assessments of need as it relates to housing crisis;
- Consistent data collection
- Referrals to programs and services
- Provision of prevention or diversion resources
- A way to begin transforming programs into a system
- A way to analyze needs and gaps in a systematic way
- A requirement under HUD's 2012 ESG/CoC regulation

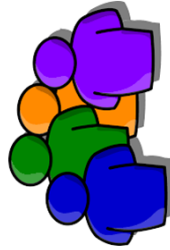

## Coordinated Entry Will:

- **Divert** people away from the homeless services system who have other safe options for housing, so they never enter homelessness.
- Help **open** the system by moving people more quickly through the referral process.
- **Reduce duplication** of efforts and help serve individuals better.
- **Reduce frustration** for service providers through targeting and engagement efforts.
- Quickly move people from homelessness by **connecting** them to the **most appropriate** housing program available.
- Assist communities with **ending homelessness**
- Be **good stewards** of limited resources.

## Commitment from All Doors Lead Home Coordinated Entry:

- **Prioritize** persons that are identified as having the highest need for service based upon: chronicity, length of time homeless, and vulnerability.
- **Collaborate** with other agencies and entities to address the needs of those most likely to die on the streets.
- **Transition from rom a “first come, first served” approach** to an approach that says “now that you are here, let's determine, together, what might be your next step”. A model that prioritizes the most vulnerable individuals and families in a community for the most intensive interventions and sets a course of services that meets the needs of all individuals and families experiencing homelessness or at-risk of homelessness.
- **Close all “side doors”** to the homeless system to ensure individual and families in the highest need get immediate and appropriate assistance.

Individuals and families seeking housing assistance

## Public and Non-Public Doors

Triage, assessment, and referral (Diversion, Prevention, CE)

## ADLH CE

Prioritization and most appropriate intervention determination.

## Connection

Wrap around services, updates, and all possible solutions explored.

## Housed

HOME with wrap around services (as needed).
