ATTENTION STUDENTS

If you are not registered for either summer or fall credits by MAY 18th your nCard access to all buildings and rooms will be disabled.

This means you will NOT have access to any UNL buildings or offices.

Please register for your classes ASAP or you will be at risk of losing nCard access over the summer.

If you will not be registering for summer or fall classes but need your nCard access to remain active, please email Zee at mcronin6@unl.edu with a rationale as to why your access should remain active.

Zee and Jules have uncovered a number of EDPS relics from years past. Namely, KEYS! We've found approximately 1 boatload of keys in our office over the last few weeks.

How much is a boatload?

Well, we don't want to spoil the surprise...

Let's play a game! Category is...

HOW MANY KEYS DID JULES AND ZEE FIND?

EVERYONE is welcome to participate!
Forms are available in TEAC 114.
You'll find them on Zee's desk.

Come on down to TEAC 114 between now and Wednesday, May 8th to place your guess! We're playing by The Price is Right rules— whoever guesses the number of keys closest to the actual number without going over will receive a gift card to their favorite local coffee shop!

The Lincoln Marathon will be held this Sunday, May 5th. City Campus is a key area for the race and related weekend events. The marathon route includes sections of City Campus, including start & finish lines.

Parking restrictions, heavy traffic, runners, and fans will be factors throughout the weekend. To learn more regarding parking and traffic changes over the weekend, visit:

<https://newsroom.unl.edu/announce/unlpts/17317/94873>

CONGRATULATIONS to all who
are graduating this semester!

CEHS wants to celebrate you!

If you are graduating this May, you are
invited to CEHS' GRAD SENDOFF this
Friday, May 3rd.

The event will take place from 3-5pm
in CPEH 227. There will be
decorative mortar boards, free
professional headshots, and more!

The Department of Communication Studies invites you to join them for their lecture entitled

**Data Equity: Humanizing Data for Storytelling,
Social Justice, and Community Impact**

**Thursday, May 2 from 3:30-5:00 PM
Heritage Room of the Nebraska Union**

Against the backdrop of rising global inequalities, misinformation, right-wing authoritarianism, white supremacist incursions, and climate crisis, this talk will discuss the role of data and quantitative approaches to communication from a critical lens. It argues that communication plays a central role in humanizing data, bridging methodological divides between social sciences and humanities, and creating pathways to find solutions to some of the most urgent social issues of our times.

**BE A MORE
PRODUCTIVE
SCHOLAR**

Kenneth A. Kiewra

Congratulations to Professor Ken Kiewra whose book, *Be a More Productive Scholar*, was recently published by Cambridge University Press. Drawing upon Ken's 25 years of productive scholar investigations, the book reveals how leading scholars are so productive and offers more than 100 recommendations for budding and seasoned scholars alike. In the fall, Ken also delivered a 5-part webinar series on this topic that was viewed by more than 2,000 scholars worldwide.

MAY IS ASIAN/PACIFIC HERITAGE MONTH!

DURING THE MONTH OF MAY, IT IS IMPORTANT THAT WE TAKE TIME TO REFLECT AND CELEBRATE THE IMPORTANT ROLES THAT ASIAN AMERICANS, NATIVE HAWAIIANS, AND PACIFIC ISLANDERS HAVE PLAYED IN OUR SHARED HISTORY.

Did you know? The month of May was chosen to commemorate the first Japanese immigration to the United States (in 1843). Additionally, it marks the anniversary of the completion of the transcontinental railroad in 1869. The majority of workers who laid the tracks were Chinese immigrants.

The poster is decorated with various board game icons like dice, a horse, and a person.

Opioid & Substance Use: How it Affects the Lives of our Patients

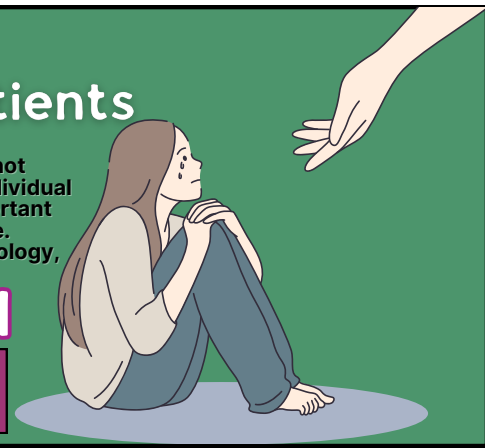

With Drs. Kenneth Zoucha, Claudia Moore, & Sara Zachman

Because substance use and SUDs impact so many aspects of a person's life, treatment is not simple. Effective treatment addresses many components of life, and to be effective, an individual treatment plan addresses particular aspects of the illness and its consequences. It is important that SUDs are seen as a chronic disease process that requires ongoing care to be effective. Resiliency factors will be addressed. This training will also address epidemiology, neurobiology, effective screening and assessment, and evidence-based treatment.

**May 16, 2024 - 8:00am Central
Via Zoom**

This Zoom training is **FREE** to attend. Registration is required.

Client Mental Health & Multicultural Assessments

presented by Linda Fleming McGhee, JD, PsyD

This course will address the connection between mental health and the assessment of diverse populations, including the impact of culture on diagnosis. The implications of misdiagnosing diverse populations are far-reaching and impact the life trajectory of these communities. Solutions to misdiagnosis of diverse populations will be addressed, including the use of various psychological tests and other clinician-based solutions.

Wednesday, May 15th

9:00-11:00am PT (11am-1pm CT)

At the end of this webinar, the learner will be able to:

- Discuss how diverse populations, including those organized around race, gender, and sexual orientation, may be misdiagnosed in the assessment process;
- Describe the far-reaching impact of misdiagnosis (underdiagnosis, overdiagnosis, and incorrect diagnosis) on diverse communities; and
- Analyze solutions to misdiagnosis based on culture, including the use of various tests and clinician-based solutions.

HOW MANY KEYS???

Thank you to all who participated in our guessing game!

(at least they're not bees!)

We had guesses ranging from 2 (thanks, Matt Fritz) to 3,000. However, no one nailed it perfectly.

The time has come to reveal the answer...

Drumroll please!! 

Our grand total came to **701 KEYS**

JORDAN WHEELER, COME ON DOWN! YOU HAVE BEEN SELECTED TO WIN A GIFT CARD TO A LOCAL COFFEE SHOP!

Jordan guessed 673 keys, which was the closest guess without going over!

Live Webinar May 17 - Neurodiversity Matters: Increasing the Effectiveness and Inclusivity of CBT in Clinical Practice

There is a growing call for clinicians to shift away from formulating neurodevelopmental differences as signs of pathology or deficit, and to move toward seeing these differences as part of normal human variation, much in the same way as other diversity factors (e.g., race, sexual orientation). This webinar will highlight the clinical implications of working from a neurodiversity perspective, with emphasis on the benefits of approaching care from a frame of inclusivity.

a note from Jules:

WOW! It's hard to believe the end of the semester is finally here! First, let me congratulate each and every one of you for making it through this academic year! And to those who are graduating: SUPER CONGRATULATIONS! I know how hard each of you work in achieving your goals, and I wish you nothing but success in all of your future endeavors! This will be our final Weekly Wednesday for the academic year. It has been a joy and a pleasure to write to you every week. The next newsletter will come out right before the start of the Fall semester, so be looking for it in your inbox come August.

As the summer months approach, I hope everyone is able to find some rest, relaxation, and FUN. I myself am going on my first vacation in almost 5 years! I will be traveling by train to Chicago next month on a vegetarian hot dog pilgrimage. I'm being 100% serious when I say that I have not been this excited in a very long time.

How about you? What are you getting up to this summer? I have a request for you: PLEASE TAKE PICTURES! I would LOVE to feature your summer excitement in our first newsletter next semester! Let's celebrate!

Summer in the office won't be the same without all of you, but Zee and I have big plans to keep busy! Here are some things you need to know:

1. We will have limited summer office hours, meaning both Zee and I may not be in the office for the entirety of the day. We will send out our office hours schedule within the next week or so!
2. I will be completely clearing out & reworking our EDPS Email Listservs. If you receive any funky automated emails, that's just me. I want to make sure everyone is on the proper listservs for the next AY so there is less confusion in the future!
3. Additionally, I have some big thoughts & plans for reformatting the Weekly Wednesday. BUT! I WILL NEED YOUR HELP! I'll be sending a survey about the newsletter to y'all this summer. If you have the time and are willing, please fill out the survey! It will also be shared at orientation.
4. And Finally: PLANNING FOR ORIENTATION!!! See below for the save the date

Have a safe and happy summer, everyone!!! All my best,
Jules

Attention Students!

The Center for the Integration of Research, Teaching, and Learning (CIRTL) is offering ALEC 987 this summer!

This intensive, 5-week online course aims to strengthen undergraduate STEM education by preparing graduate students, postdoctoral scholars, and early career-faculty to be change agents in their roles in higher education. Through participation in this course, participants will be equipped with the knowledge and skills to inspire and influence others, analyze their institution's structure, and become agents of change. By the end of this course, participants will:

- Develop a professional identity as a Change Agent,
- Examine higher education institutions as complex organizations, as well as analyzing leadership approaches and change theories, and
- Develop strategies, skills, and abilities appropriate for serving as a Change Agent while holding a position as an early-career faculty member.
