

Find current high speed Internet coverage for Nebraska – or your address.

Nebraska Broadband Mapping Project

You can take advantage of the information and tools of the Nebraska Broadband Map.

- Enter a specific address and get a list of broadband service providers (with links to their websites) for that location.
- Take the Nebraska Broadband Speed test. It rates the speed performance of the computer you are using for the test. The results are automatically added to the complete report of actual Internet access across Nebraska.

There are a few steps to getting your information – ***But It Is Easy!***

First – go to the MAPPING page of the Nebraska Broadband site

<http://broadband.nebraska.gov/mapping>

A map will appear in the lower portion of the page.

- Click on the box over the map portion **I have read and agree with the Disclaimer**
- Then click on **Continue**
- In the left column, **Broadband Dashboard**, select options for information.

To find your current available broadband service providers:

- Enter the **Address, City, and ZIP** in the designated boxes
- Click on **Find Address**
 - A list of current Providers will appear
- Click on the **Provider** to see services they provide and get their website address.
 - You can then contact the provider for more information.

To find your Internet connection speed:

- Click on **Speed Test**
- Use the **Find Address** option for **your** current computer
- Use the **Pushpin Location** option for **another** address.
- Respond as directed for service provider and Internet connection technology.
- Then click on the **Run Speed Test** box.

To see the current coverage options across Nebraska:

- Click on **Coverage**
- Select the options you want to see.
 - The state map will be shaded to reflect the coverage.

You can also simply share your opinion with the Nebraska Public Service Commission. Click on **Feedback** in the dark red area at the top of the map. Select and share your input!

For more information, go to Nebraska Broadband www.broadband.nebraska.gov

Technology for Librarians 101 is offered as part of the Nebraska Broadband Mapping and Planning Initiative, funded through a grant by the U.S. Department of Commerce's National Telecommunications and Information Administration. The Initiative aims to increase broadband adoption and use. For more information, check <http://broadband.nebraska.gov>
