

Department of Mathematics Presupervisory Advisor Change Form

The Department of Mathematics assigns a "presupervisory" advisor from the Graduate Advisory Committee for each incoming graduate student. It is also the policy of the Department of Mathematics that graduate students who have not yet formed their supervisory committees are free to change their presupervisory advisor to another member of the Graduate Advisory Committee, or of the graduate faculty in the Department of Mathematics, who agrees to take on that role. This can be done using this form, which should be returned or emailed to the Graduate Chair.

To be filled out by the student requesting the change of presupervisory advisor:

Student's name: _____

Student's signature: _____

To be filled out by the faculty member agreeing to be the new presupervisory advisor:

Faculty name: _____

Faculty signature: _____
